

GREETINGS

Greetings,

On behalf of the City of Seattle, it is my pleasure to welcome you to KIN ON Community Health Care's "*Celebrating Silver, Striving for Gold*" 25th Anniversary Dinner and Fundraiser, September 25, 2010.

This event is the result of countless hours of work by a multitude of organizers, volunteers, staff and sponsors – together all of them are an outstanding example of the passion of Seattle's Chinese community and the power of people joining to work together for a great cause.

Twenty five years ago Kin On was created to provide long term, high quality and culturally sensitive care for the Asian elderly in a peaceful atmosphere. That vision produced the Kin On Health Care Center which provides for almost 400 elders annually. Kin On Health Care Center is ranked one of the best nursing homes in the State and has won numerous awards through the years.

We hope that your evening program "*Celebrating Silver, Striving for Gold*" will be a wonderful acknowledgment of your success and a great commemoration of your 25th year milestone.

Best wishes for an outstanding evening!

Sincerely,

Michael McGinn
Mayor
